Si diventa grandi grazie ai sogni

You grow up thanks to your dreams

Marchetti prosegue con coerenza il proprio percorso aziendale, con progetti che, fondendo passato, presente e futuro creano sorprendenti effetti luminosi grazie ad oggetti ideati per essere inseriti in qualsiasi contesto d'arredo contemporaneo. Forme destinate a durare nel tempo con uno stile lineare ed elegante.

Da quarant'anni l'azienda di Ancona si fa portavoce in tutto il mondo della qualità del Made in Italy, tra design e alto artigianato, avendo cura che anche i materiali più nuovi siano lavorati con la stessa attenzione riservata al "fatto a mano". Le idee imprenditoriali alla base della filosofia aziendale sono la creazione di uno stile inconfondibile, che si rivolge ad un pubblico raffinato e conscio delle sue esigenze.

Le lampade proposte da Marchetti sono caratterizzate da uno stile attuale e da un design innovativo, ogni singolo elemento è studiato e realizzato con materiali speciali e linee sinuose, al tempo delicate e preziose, capaci di evocare sensazioni uniche.

L'illuminazione, oltre che illuminare, tende anche a creare atmosfere e scenografie di impatto ed è per questo che è spesso considerata elemento imprescindibile dell'arredamento di spazi commerciali, professionali e aziendali di un certo tipo. Marchetti ha una struttura produttiva che le consente di essere il partner ideale per grandi forniture, su progetto del committente. Fare contract significa poter fare sperimentazioni su grande scala, tenere in considerazione tutti gli aspetti del progetto, dal primo abbozzo dell'idea fino alla manutenzione del prodotto finito, ma significa anche mettersi alla prova per trovare soluzioni che possano poi essere trasferite dai macro-ambienti alle case, dalle realtà aziendali agli spazi più intimi. L'azienda ha pensato di studiare strumenti flessibili e funzionali a servizio di architetti, ingegneri, tecnici e imprenditori per fornire la migliore risposta possibile ai quesiti più articolati.

Marchetti continues its coherent path with projects that merge past, present and future. It creates amazing light effects thanks to objects designed for any context of contemporary furniture and shapes designed to be long lasting with a linear and elegant style.

For forty years the company from Ancona has been echoing around the world the quality of Made in Italy, design and craftsmanship, ensuring that the new materials are processed with the same attention of the handmade ones.

The business ideas behind the company's philosophy is to create a unique style that calls on to a sophisticated public who is aware of their needs.

The lamps proposed by Marchetti are characterized by a modern style and an innovative design.

Each element is designed and manufactured with special materials and sinuous shapes, that are precious and delicate at the same time, capable of evoking unique sensations.

The lighting, as well as light, also tends to create an atmosphere and scenery of impact and that is the reason why it is often considered an essential element of furniture retail space, professional and business of a high level. Marchetti has a productive structure that allows it to be the ideal partner for large supplies based on the client project.

Contract means being able to do experiments on a large scale, taking into account all aspects of the project, from the first sketch of the idea to the maintenance of the finished product. contract also means to test themselves to find solutions that can then be transferred from the macro-environment to houses, from business realities to intimate spaces.

The company has decided to study functional and flexible instruments for architects, engineers, technicians and businessmen to provide the best possible answers even to the hardest questions.

Tra tradizione e tecnologia

Between tradition and technology

Nonostante la produzione dei prodotti Marchetti sia di tipo industriale, si ritagliano nelle sue fasi alcuni spazi affidati completamente all'abilità e alla tradizione degli antichi maestri artigiani. L'azienda fa della manualità il suo punto di forza, perchè sono i dettagli del pezzo singolo a fare la differenza. Tutto viene eseguito con la massima cura e con attenzione al particolare.

Il lavoro manuale, unito alla ricerca di materiali sofisticati e di tecnologie appropriate alla loro lavorazione, rende i prodotti esemplari unici, creati su misura. È la sapienza che non ha tempo, che mette in opera senza fretta, rispettando i ritmi necessari, a rendere il prodotto impeccabile.

Despite being made industrially, several phases of the Marchetti production are completely in the hands of traditional, master artisans. In fact this hands on approach is one of our strong points, because the individual details are what makes the difference to each piece.

Everything is executed with the greatest of care and attention. The hand-worked parts, along with the research into sophisticated materials and specialist techniques make the products unique, made-to-measure models. Timeless knowledge makes our output faultless by not rushing and respecting the rhythms necessary to create.

Progetti personalizzati

Personal project

Grazie alla sua versatilità e flessibilità di produzione, Marchetti è in grado di pensare e realizzare prodotti semplici ma anche oggetti maestosi, solenni, adatti ad habitat di lusso ed eleganti, che danno un tocco di classe agli ambienti che arredano. Materiali come oro, cristallo e metallo sono rappresentativi di classe e spettacolarità e colpiscono l'occhio grazie alla luminosità che emanano.

L'estetica però non sostituisce la funzionalità dell'oggetto. I criteri di praticità, utilità e durata nel tempo rimangono fondamentali e sono riscontrabili negli articoli, frutto dell'inventiva dei designer che alla Marchetti si rivolgono per realizzare i loro progetti. Il bello non ha confini, non esistono limiti alla fantasia e al desiderio.

Thanks to the versatility and flexibility of our production we are able to design and realize objects which are both simple but, at the same time, majestic, imposing, made for the most luxurious and elegant surroundings which give a touch of class to the environments that they adorn. Materials such as gold, crystal and metal embody spectacular class and catch the eye thanks to the light they emanate.

The form however doesn't get in the way of the function of the products. Practical criteria, as well as effectiveness and durability remain fundamental and are easily seen in the products, fruit of the ingenuity of the many designers who turn to Marchetti in order to realise their projects. There are no limits to beauty, no end to fantasy and desire.
